**SENATE BILL**

**No. 1079**

---

**Introduced by Committee on Business and Professions (Senators  
Figueroa (Chair), Aanestad, Brulte, and Machado)**

March 28, 2003

---

An act to amend Sections 5640, 5657, 7583.36, 7820, 7841, and 7883 of, and to repeal Section 7849 of, the Business and Professions Code, and to amend Section 26509 of the Government Code, relating to professions and vocations.

LEGISLATIVE COUNSEL'S DIGEST

SB 1079, as amended, Committee on Business and Professions. Department of Consumer Affairs.

(1) Existing law provides for the regulation of landscape architects by the California Architects Board. Existing law requires each licensee to notify the board's executive director of any change of business address. Existing law makes it a misdemeanor for any person to use the title "Landscape Architect" without possessing a valid, unrevoked license from the board.

This bill would require a licensee to file his or her current mailing ~~and~~ or business address at the board's Sacramento office and would require the licensee to immediately notify the board if his or her business or mailing address changed. The bill would make it a misdemeanor to use the terms "landscape architecture," "landscape architectural," or any other titles, words, or abbreviations that would imply licensure as a landscape architect. Because the bill makes it a misdemeanor to use additional terms implying licensure as a landscape architect, the bill would impose a state-mandated local program.

(2) Existing law prohibits a private patrol operator from authorizing an employee to carry tear gas or other nonlethal chemical agent unless the employee has a certificate from the Department of Justice or the Commission on Peace Officers Standards and Training showing the employee is proficient using tear gas or other nonlethal chemical agents.

This bill would instead require that the certificate be from the Department of Consumer Affairs, Bureau of Security and Investigative Services.

(3) Existing law, the Geologist and Geophysicist Act, provides for the registration and discipline of geologists and geophysicists by the Board for Geologists and Geophysicists. Existing law requires an applicant for registration to meet certain educational requirements and have at least 7 years of specified professional geological work. Existing law requires a majority vote of the board to determine the qualifications of an applicant for registration.

This bill would instead require an applicant for registration to have graduated from a college or university with a major in geological sciences and have 5 years of documented *professional geological* experience ~~in geology or a specialty of geology~~. The bill would repeal the requirement that a majority of the board to vote on the qualifications of an applicant for registration.

(4) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Vote: majority. Appropriation: no. Fiscal committee: yes. State-mandated local program: yes.

*The people of the State of California do enact as follows:*
